

PHP Web Developer

Kazaam Interactive of Newtown, Pennsylvania is seeking a highly talented **PHP Web Developer**. This position provides leadership and expertise in software development and managing software projects. The successful applicant will join a team of talented individuals in developing online solutions for our high-profile clients and partners.

Job Requirements:

- Must have expert level knowledge of PHP 5 and object oriented design principles
- Experience working in MVC frameworks such as Symfony, Cake, Zend, etc.
- Experience working with Drupal
- Experience developing custom Drupal modules is a plus
- Strong understanding of HTML, DHTML, CSS, AJAX, Javascript, and JQuery
- Must be able to slice Photoshop files into well-written HTML and CSS quickly and efficiently
- Ability to write code in a clean fashion and to work from and maintain existing codebases
- Knowledge of SEO and experience architecting the front-end to optimize these considerations
- Hands on experience with unit, integration, functional, and automated testing
- Intimate knowledge of browser constraints and implementing workaround for older browsers (IE6)
- Experience with Subversion for version control is a plus
- Familiarity with social networking sites APIs (Twitter, Facebook, etc.) is a plus
- Experience with designing and/or querying databases (MySQL, PostgreSQL, Oracle) is a plus
- Mobile development (iPhone and Android) skills is a plus

Job Responsibilities:

- Develop code in keeping with established processes and standards
- Strong creative problem-solving ability
- Debug and test modules before deployment to QA environment
- Excellent organizational, communication, and interpersonal skills
- Ability to multi-task, establish priorities and meet tight deadlines

Other Job Information:

- This position is a full-time contracting position with opportunity for full-time employment
- Interested applicants must send professional resume and salary requirements to careers@kazaamweb.com with subject line of "PHP Web Developer"

Candidates should be highly motivated self-starters and demonstrate the ability to teach themselves new technologies. Candidates must present a strong portfolio of sites or open source projects worked on that make them stand out. Excellent communication and collaboration skills are required.
