

iPhone/iPad Developer

Kazaam Interactive of Newtown, Pennsylvania is seeking a highly talented **iPhone/iPad Developer**. The successful candidate will have great development skills but will also be someone who is a strategic thinker and can make sound technical decisions. The successful candidate will help establish Kazaam as a leader in mobile strategy and developing solutions for our high-profile clients and partners.

Key Requirements:

- Proven experience with one or more apps published in the app store
- Expert knowledge of Objective-C, Cocoa, and UIKit
- Experience building custom user interface elements, media player controls, and animations
- Experience with Core Data and Core Animation
- Entrepreneurial excitement, a positive attitude and a hunger to get things done
- Strong communicator, self-motivated, reliable, and eager to share your excitement with our other developers
- Ability to write good, clean code and to work from and maintain existing codebases

Bonus Skills

- Leadership skills to help bring innovative mobile solutions to our customers
- Familiarity with social networking APIs (Twitter, Facebook, etc.)
- Excellent CSS, JavaScript, and HTML skills
- PHP development experience and Drupal specifically
- Mac software development experience
- Android development experience is a big plus

Other Job Information:

- This position is for full-time employment, onsite in Newtown, Pennsylvania
- Candidates must be eligible to work in the US
- Interested candidates must send professional resume, portfolio, and salary requirements to careers@kazaamweb.com with "iPhone Developer" in the subject line

Candidates should be highly motivated self-starters and demonstrate the ability to teach themselves new technologies. Candidates must present a strong portfolio of sites or open source projects worked on that make them stand out. Excellent communication and collaboration skills are required.
